Q1 Which Product Generates the Most Revenue?

Rank	Product	Revenue	% of Total	Category
#1	Smartwatch	Rs.50.3 L	8.3%	Electronics
#2	Tablet	Rs.49.9 L	8.2%	Electronics
#3	Speaker	Rs.43.2 L	7.1%	Electronics
#4	Monitor	Rs.41.8 L	6.9%	Electronics
#5	Camera	Rs.38.5 L	6.3%	Electronics

Key Insight: All Top 5 products are Electronics. Smartwatch leads at Rs.50.3 L (8.3%), closely followed by Tablet. Electronics alone = 48.6% of total revenue.

Q2 Which Month Has the Highest Sales?

Rank	Month	Revenue	Reason for Peak
#1	April	Rs.67.2 L	New financial year — fresh budgets released
#2	December	~Rs.58 L	Year-end clearance + Christmas shopping
#3	October	~Rs.55 L	Diwali / Dhanteras festive buying surge

Key Insight: April dominates with Rs.67.2 L — 12% above the next highest month, driven by India's financial year start (April 1) when budgets are freshly released.

Q3 Key Trends in Sales & Customer Behavior

■ Electronics Dominance Electronics = 48.6% (Rs.29.47 L) of all revenue — nearly half the business. Furniture is a distant 2nd at 29.66%. All other categories combined = ~21%.	■ 100% Customer Loyalty — Zero Churn All 26 customers are repeat buyers. Top buyer Deepak Pandey: Rs.31.1 L across 47 orders. Business appears B2B or serves a highly loyal niche clientele.
■ Predictable Seasonal Spikes Revenue peaks every April, October & December — consistent across 2022, 2023 & 2024. Jan-Mar is consistently the weakest quarter each year.	■ Stable Multi-Year Growth Gradual YoY revenue increase from 2022 to 2024 with no major drops. Signals a resilient, well-managed and growing business model.

Q4 Noticeable Patterns & Anomalies

Anomaly	Impact	Action Needed
10 NULL Order Dates	Rs.6.4 L revenue excluded from reports	Fill missing dates in source data
51 Duplicate Order IDs	Data integrity risk / double counting	Investigate & deduplicate raw data
Only 26 Customers	High revenue concentration risk	Actively acquire new customers
Unknown Payment Type	Data quality gap in payment records	Make payment field mandatory

Q5 Actionable Recommendations

R1 Launch Seasonal Marketing Campaigns

April, October (Diwali) & December are peak months. Run targeted promotions and bundle offers 2-3 weeks before each peak. Feature Smartwatch + Tablet as hero products.

Expected Impact: 15-20% revenue uplift during peak periods

R2 Diversify Customer Base — Reduce Concentration Risk

26 customers generating Rs.6 Cr means losing even 2-3 clients could hurt badly. Launch a B2B acquisition campaign in high-revenue cities: Mumbai, Delhi, Kanpur.

Goal: Grow to 50+ active customers within 12 months

R3 Fix Data Quality Before Scaling Analytics

10 NULL dates & 51 duplicate Order IDs create Rs.6.4 L discrepancy in reports. Implement mandatory field validation at order entry. Clean historical data.

Outcome: Accurate YoY comparisons and trustworthy dashboards
